

# Government of the District of Columbia

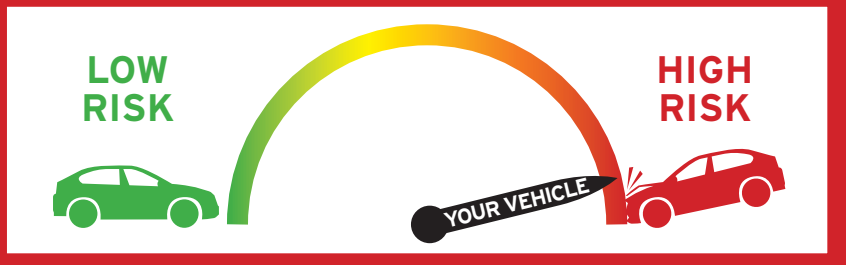

## Department of Transportation

**This is not a citation.** Our goal is to keep you and other residents safe. We will not share this letter outside of District Government.

Someone in your household is driving dangerously. Your vehicle has a history of speeding and/or running red lights and this is placing the drivers and passengers of your vehicle at a **high risk of getting into a crash**. For your safety and the safety of others, please drive the speed limit and stop at red lights.

**YOUR CAR IS MORE  
LIKELY TO BE IN  
A CRASH THAN  
OTHERS ARE.**

This message has been sent to you by DC's Vision Zero program ([dcvisionzero.com](https://dcvisionzero.com)) based on your vehicle's past traffic citations. **Since 2021, your vehicle has received multiple automated safety-related traffic citations—more than most vehicles.** Some of your vehicle's most recent violations from DC cameras are listed in the paper copy of this message that was mailed to you.

Your loved ones, neighbors, and others in the DC community do not want you to get hurt or hurt others. In addition to **saving lives and preventing injuries**, you have so much to gain by driving safely.

- **FOR YOUR LIVELIHOOD:** *Maintain a clean record, keep your license in good standing, and avoid incarceration from harming someone.*
- **FOR YOUR WALLET:** *Avoid expensive traffic tickets, pay less for your car insurance, and save money and time on repairs.*
- **FOR THE ENVIRONMENT:** *Get better fuel efficiency when you drive within posted limits.*

Thanks for helping keep District roads safe.

**DC's Vision Zero Team**
